

About ThoughtWare

ThoughtWare specialises in human resources services, project management, software development and qualitative research and surveys. Target areas are compliance and risk management whilst target industries are child care, private schools and aged care.

Stability

ThoughtWare as a business has been established for 16 years, since April 1991. Sonja Bernhardt has been CEO for 8 years, since February 1999.

The owners and directors of ThoughtWare (Dr Robin Craig and Sonja Bernhardt) have multiple degrees and qualifications between them as well as a combined experience of more than 45 years in the information technology, science, biotechnology, computer programming, human resources and research fields.

Credibility

The directors are respected published authors with over 50 publications between them and a number of board and executive committee memberships (local state, national and internationally based). Thus not only do you get the value of their business experience when you become involved with ThoughtWare but you also get the added value from the wide variety of industry and community activities the management team have undertaken and continue to undertake.

ThoughtWare the company and it's CEO have been mutli award recognised, for both business innovation, practices and acknowledged industry involvement.

We invite you to have a look for yourself on www.thoughtware.com.au under "Who We Are – Our People" and "Newsroom" to discover the incredible additional activity that enhances the knowledge, experience and networking base of this dynamic management team and company.
